EDITORIAL NOTES.

As the law now stands, it would be an easy matter to the farmers to break Washoe county by taking advantage of an act passed nine years ago to encourage the planting of fruit trees. The law gives a bounty of ten dollars an acre. It would be an easy matter if the notion took them, for the farmers of a county like this to plant ten or even 20,000 acres of trees, and if the C. P. once should decide to raise timber on its right of way, it could pay all its taxes that way. It looks as if the law was too generous and should be repealed.

During the year 1881 no less than 1,149 persons were killed and 8,676 injured by railway accidents in Great Britain; but of this great number only 43 met with their deaths and 1,161 received injuries from causes entirely beyond their own control. Again, of these 42 persons killed only 23 were passengers, and as the roads carried altogether more than 600,000,000 passengers, there was only one death to 26,000,000 passengers.

Governor Stone of Mississippi has pardoned one Thomas H. Cook, who was under a ten years sentence for manslaughter, upon his written promise to abstain from the use of intoxicating liquors and from the carrying of concealed weapons during the whole time for which he had been sentenced. The pardon is to be void if the conditions are at any time violated.

In 1854 the average cost of a Russian soldier's ration was \$19; in 1881 it was \$40. In 1856 his equipment, exclusive of arms and knapsack, cost \$11.25; it now costs \$18.25. The total weight which he carried in 1856 was 72 pounds; he now carries 62 pounds, although he is now provided with 84 cartridges instead of 60, and has lately been supplied with a new water bottle weighing 2 1/2 pounds.

The Supreme Court has reversed the judgement of the lower Court in the case of Clarence Gray, convicted of the murder of Glancy, editor of the Santa Barbara Press, and granted defendant a new trial on the ground that the jury were too liberally supplied with beer and liquor during the progress of the trial.

A determined effort will be made by the Mormons to render nugatory the law enacted at the present session of Congress to suppress polygamy. They intend to do all that is in their power to retain the political supremacy they now possess in Utah, and the contest between the friends and foes of polygamy will be long and bitter.

A correspondent of the Carson Index wants to see the party united. In referring to the head of the ticket he says: "If the Republicans of our State wish to unite all factions they cannot ignore the claims of Farmer Treadway, or W. M. Boardman."

The largest vote ever cast in Nevada was 24,660, whereas the Census Bureau says the aggregate voting population is 31,355. If any party could choose candidates sufficiently popular to draw out these 7,000 votes, they would have a better thing than a sack.

S. H. Day, Carson, is said to be a candidate for Surveyor-General on the Democratic ticket. It will be a good nomination.

One delegate to the Maine Republican State Convention, presented the names of three candidates for Governor.

The following nominations have been confirmed: James Riley of West Virginia, Secretary of Legation and Consul General at Vienna; John T. Robeson of Tennessee, Consul of the United States at Beyruth; James C. Tollman, Surveyor-General of Oregon; George A. Johnson, to be Collector of Customs at San Diego; William H. Swan of Pennsylvania, Indian Agent at Cheyenne River Agency, Dakota.

The President has made proclamation of the ratification of the treaty between the United States and Switzerland and other contracting powers giving in the adhesion of this Government to the terms of what is known as the "Geneva Red Cross Convention"

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

Page on Logan's "thoroughfare" Bill. WASHINGTON, July 28.

Representative Page, speaking today of Logan's bill in the Senate, to permit the passage of homeward-bound Chinamen across this country, said: "If the bill passes the Senate it will never get through the House. If it comes hither it might go to the Speaker's table, or be referred to the Committee on Commerce, of which I am Chairman. If it goes to the Speaker's table it will require either unanimous consent or a suspension of the rules by a two-thirds vote to take it up, and it will never get either. If referred to my committee, I will take care it never gets through the House." With regard to the objects of the bill, Mr. Page said it was evidently introduced by Logan at the request of his railroad constituency in Illinois. There is no necessity for these people coming this way home. They did not pass through this country when going where they now are. The Attorney General has decided that under the fifth section of the bill they cannot be permitted to pass through this country. When we were preparing the second bill this matter was before us, and we could see no way to frame a bill to permit their going through without destroying the chances of passing the bill.

Fearful Pestilence.

CHICAGO, July 29.

Laredo special advices from Matamoros, Mexico, are that a fever which has been prevalent there, called malaria, proves to be the most virulent type of yellow fever. It is rapidly spreading, and black vomit accompanies it. There has been a number of deaths in the past four days, and the disease is regarded as epidemic. Col. Lote, of the Mexican regular army, lost his wife and daughter and is now dying himself. Brownsville and Matamoros have been quarantined against the lower Rio Grande towns. Great excitement and consternation exists throughout the States of Tamaulipas and Nuevo Leon, Mexico. The news was received here yesterday and was disbelieved, but coast cities will be quarantined against it at once. Ships have been freely plying between Matamoros and other gulf towns. A dispatch from Austin confirms the news above given and says that the health officer there has notified New Orleans of his action and will picket the Rio Grande with rangers if necessary.

The Adjournment of Congress.

WASHINGTON, July 29.

The general impression is that Congress, at the latest, will adjourn one week from today. It will be impossible to keep people here even as long as that time, as a great many members of the House left yesterday, not intending to return. At the only vote taken yesterday there was but just a quorum. It is not expected there will be a quorum in the House after the middle of next week.

There is some wonder expressed that the Chinese in Cuba should desire to return to their country through the United States, in view of the fact that the passenger fare through the United States is exactly double what it is by ship direct to China, and Chisamen all want to go by direct routes.

Killed by Heat.

NEW YORK, July 28.

The number of deaths reported up to noon yesterday for the twenty-four hours was 184. Of these 80 died of cholera infantum, directly due to the heat. There were many additional deaths due to heat in the afternoon and evening.

NEW YORK, July 29.

The appalling mortality of this week is 1,317, the largest in 10 years. To-day's deaths are 218. One-third of the victims are infants, dying of cholera infantum. Eight sunstrokes and 11 deaths from heat to-day. Five sunstrokes reported in Brooklyn. It is raining now. Thermometer 84 degs.

Railroad Conference.

KANSAS CITY, July 29.

In order to settle threatened trouble regarding passenger rates, the agents of Eastern lines have met to-day and decided that all lines withdraw the sale of tickets to Cincinnati and St. Louis, via Chicago, and prohibit brokers using through tickets to points beyond Chicago and St. Louis for the purpose of cutting rates to the latter points.

Advocates of Prohibitory Laws. MADISON, Wis., July 29. The Monona Lake Assembly, composed of several thousand people from the northwestern States, representing all denominations, to-day passed resolutions to the effect that it was the duty of religious people to advocate prohibitory legislation.

Requesting His Signature. LOUISVILLE, Ky., July 29. The Board of Trade sent a request to the President to-day to sign the River and Harbor bill.

The Question to be Left to the United States. WASHINGTON, July 29.

There are good reasons for the assertion that the report of the House Committee on Foreign Affairs on the

Chili-Peru investigation will not reflect on any United States officer. The Government has expressed a willingness to arbitrate upon the Mexican and Guatemala boundary question.

His Presence Required.

CHATTANOOGA, Tenn., July 29. Ex-Postmaster-General D. M. Key received a telegram to-day from General Brady, requesting his presence at Washington at once to testify in the star route case. He probably will comply with the request.

Sullivan Fined.

BOSTON, July 29. Sullivan the pugilist was fined \$30 for drunkenness and obscenity to-day.

FOREIGN.

EGYPT'S TROUBLES. Arabi Pasha Proclaimed a Rebel—Meeting of Leading European Merchants—An Armor-Clad Train—The Vote of Credit Rejected by the Chamber of Deputies by a Vote of 450 to 75. ALEXANDRIA, July 29. No further news regarding Arabi Pasha's wish for peace.

CONSTANTINOPLE, July 29. In the Conference Thursday Representatives of all European Powers assented to the proposal of Lord Dufferin, that the Sultan proclaim Arabi Pasha a rebel. Both yesterday and to-day Lord Dufferin sent Sanderson, Secretary of Legation, to the Sultan, to insist upon the issue of this proclamation and declare that it is absolutely impossible to withdraw British troops from Egypt at present.

LONDON, July 29.

A correspondent at Alexandria says an important movement, in which the fleet will participate, will probably take place to-day.

ALEXANDRIA, July 29. The attendants of delegates from Kafr el Dwar, state that there is great want of food at Arabi Pasha's camp and that the troops are tired of war. The delegates had an interview with the Ministers, lasting two hours. They said they had come to express the resolution of the whole country to resist foreign aggression to the end.

A meeting of leading European merchants was held yesterday, when three resolutions were passed. The first expressing want of confidence in native policy; the second, expressing disapproval of the free circulation of natives to and from the city, thus affording Arabi Pasha means of inflaming the passion of the people, and third demanding every native to give a proof of his means of subsistence. This last resolution is aimed at spies and emissaries of Arabi Pasha.

Captain Fisher has constructed a shore-going iron-clad on rails, similar to those used during the American civil war. It consists of six trucks, protected with iron shields, with engine in the center. A Nordenfildt gun looks over the bows on the leading trucks. It is also equipped with three Gatling guns and two field guns, and will be mounted by three companies of jackets. The train is provided with mines, electric gear, and all appliances for laying down or destroying rails. It will proceed to the railway junction, within two miles of Arabi Pasha's lines, which will be seized and occupied to fortify that important point. They have just returned from a reconnaissance on the armor-clad train. Very useful information has been obtained, but the expedition failed to obtain the large results anticipated owing to the train being stopped by a break in the line.

Many persons have been arrested on false charges, preferred, in some instances by Europeans, two of whom have been placed in custody for perjury, and another condemned to one year's imprisonment, bastinado and to pay a fine of £7.

CONSTANTINOPLE, July 29.

The Sultan replying to the verbal representations of Lord Dufferin, the British ambassador, requesting an immediate issue of a proclamation against Arabi Pasha stated that such a demand cannot be made by England alone, but should proceed from a Conference of the Powers in which case it would receive due consideration.

ALEXANDRIA, July 29.

The fort at Gabari was destroyed this morning.

CONSTANTINOPLE, July 29. The German representative was instructed yesterday, from Berlin, to recommend the Sultan to issue a proclamation declaring Arabi Pasha a rebel as demanded by England.

Mouhtar Pasha has made arrangements which will enable the Porte to dispatch 20,000 men to Egypt in successive detachments.

PARIS, July 29.

In the Chamber of Deputies to-day, De Freycinet, in proposing a second vote of credit, declared it was a question of confidence in the Cabinet.

The Chamber of Deputies rejected the credit demanded by a vote of 450 to 75 this afternoon.

ALEXANDRIA, July 29.

Osman Pasha Rukfi and 26 Circassian officers, implicated in the recent plan to assassinate Arabi Pasha, arrived here to-day from Constantinople, having been summoned by telegraph by the Khedive. They were received with great ceremony.

Admiral Seymour will reconnoitre Abaukir Fort to-morrow. There appears to be some doubt as to whether the bombardment of the forts will take place, because it is supposed the prisoners held by the Egyptians are confined there in a large powder magazine. The powder magazine at

Mekharom, from which it was said Arabi Pasha had recently taken stores has been blown up by the British.

The Canadian Pacific.

FORT WALSH, B. C., July 29. The management of the Canada Pacific Railroad has adopted Perry Crossing of the south Saskatchewan river at Medicine Hot Coulee, and issued instructions to begin work east and west from that point. Settlers are flocking in and it is regarded as quite certain that there will be built the future capital of British of the northeast, and head quarters of the mounted police.

Davitt in London.

LONDON, July 29. Davitt arrived yesterday. He was interviewed by a reporter of an Irish paper, and stated he would not fight the question of nationalization against the present proprietary if there was the slightest chance of creating dissension in the Land League. He said he would return to Ireland immediately, to put a spoke in the wheel of Kavanagh's land corporation scheme.

What Does This Mean.

CONSTANTINOPLE, July 29. The Russian Charge d' Affaires is ordered by his Government not to attend any more meetings of the Conference until he has received detailed instructions.

Killed by Lightning.

LOOMIS, Ills., July 29. Geo. Miller and F. A. Hartley were instantly killed by lightning near here yesterday.

Hope for the Land League.

DUBLIN, July 29. Anna Parnell is slightly better this morning.

WESTERN.

Murdered and Robbed. SAN LUIS OBISPO, July 29. An English sheep raiser named Lewis, was found dead on Pismo ranch this morning. He had been buying sheep, and it is supposed he was murdered for his money. He was stabbed twice and had his throat cut.

Death of a Leading Mormon. SALT LAKE, July 29. Bishop A. C. Pyper, for many years Alderman and Police Justice of Salt Lake, died this morning with cancer of the face. He was a leading Mormon, influential in the Church Councils, and was a phenomenon in that he was a Mormon official respected by all classes.

The New York Tax Commissioners say that the original assessment on the Panama Railroad was \$14,280,000, and after it had been recorded the Company protested, claiming that their capital stock was \$7,000,000, and real estate in the United States of Columbia, \$8,932,870. The Commissioners finally accepted \$7,000,000 as the original valuation. They then deducted the cost of real estate, which made the valuation of the capital stock \$4,652,130.

A London dispatch says Sir Garnet Wolsey is seriously indisposed.

NOT TO BE NARROWED

The Virginia and Truckee Railroad to remain as it is.

Several of the papers have recently given credence to the rumor that the Virginia and Truckee road would soon be changed from her four foot eight and a half inches to a three-foot gauge. A GAZETTE reporter recently interviewed Mr. Bender, the General Freight and Ticket Agent of the road, and he said there was no prospect at all of such a change. The company now has only four box cars, and does not need any more, because all freight for Virginia and Carson goes right through in Central Pacific cars and vice versa. All freight for the Carson and Colorado is now transferred at the Mound House, and it is just as easy to transfer there as at Reno, which would have to be done if both were narrow gauge. There is, or was, and will probably be again, a great deal of very heavy machinery for the Comstock, which can be loaded and unloaded by means of special appliances and carried by specially built cars. To transfer such castings en route would be no small job. Very long and heavy sticks of timber for pump-bobs and rods would also make very hard work for the company to transfer. If there was a change of gauge the rolling stock now in use would have to be changed or sold, and new engines and cars bought, and all this without benefiting the company in any way. It is not likely, as long as there is any Comstock at all, that any such change will be made.

DEPRIVED OF HIS TAIL.

How a Reno Doctor and an Officer of the Law Decorated a Scotch Terrier. Several attorneys in the Justice Court yesterday afternoon, annoyed at the yelping of a dog, stepped to the door to ascertain the trouble, when they saw Dr. Bergman and Deputy Sheriff Dute Gray, at the rear entrance to Dr. Bergman's office, busily engaged in administering chloroform to a dog, a fine bred specimen of the Scotch terrier. Dute seemed to be manipulating the sponge, paper funnel and bottle, while the Doctor was whetting his knife preparatory to depriving the canine of his tail. The terrier was the property of a lady living on the Meadows, and highly prized by her, it being a present from a friend. After the dog was good and limp from the effects of Dr. Gray's sponge, vigorously applied to his nose, Dr. Bergman, finding a joint in the dog's tail about two inches back, applied the keen-edged knife to the bone and away went about four inches of the tail to the ground. The Doctor, with much skill, carefully pulled the loose skin over the edge of the exposed bone, took two or three stitches, and pronounced the job completed. Dr. Gray let up on the sponge, shook the poor little brute up a little, but he remained very quiet, and counselor R. E. Lindsay, who had been watching the operation, made the startling announcement that the dog was "dead as hell!" The poor woman, and owner of the dog, came running out to view the inanimate remains of her once long-tailed pet, and with tearful eye and quivering voice she informed the knights of the knife and sponge that she "did w-a-n-t her little d-o-g-g-i-e's tail cut off, but didn't w-a-n-t him killed. The kind-hearted and sympathetic doctor tried to comfort her, but it was no go. "Well," says he, "vot's a tog? You can get plenty more togs—dar! Oh, tam dar tog; don't cry any more—dar! I guess he got a leadle too much chloroform—dar!" All this time the M. D. was vigorously swinging the pup to and fro, holding him up by the hind legs, with his little stubby tail sticking out like a sore thumb, and his head flopping about like an inexperienced woman riding horseback for the first time; but it was all over with the dog; he was dead—as Lindsay said—"dead as hell!" and nothing the physicians could say or do helped the matter. The lady took her dead pet in her buggy and started for Glendale where the remains will be interred. In relating the story to a friend she said she took the dog to Dr. Bergman to have his tail cut off, and he called in a tramp to administer the deadly drug that killed her pup. If a cold nose is any sign of a good dog this one is one of the best on the coast.

The Denver Exposition.

E. T. George, Commissioner from this State to the Denver Mining Exposition, is in Virginia. He will leave Carson for Denver next Monday. He will take charge of all samples of ores that may be sent to him at Denver, and place them properly on exhibition. Provisions have been made for paying the charges on ores so sent, therefore it will cost the sender nothing.

A stray Whirlwind.

A small Kansas zephyr wandered out this way a week ago Thursday, and picked out the ranch of H. M. Frost to show its skill upon. It twisted off a healthy young plum tree five inches in diameter, and threw it down in the wheat field. A gate was torn from the post and landed 30 feet away. It occurred the day the water spout was seen in the mountains.

The J. and E. Mine.

A. H. Manning and R. W. Perry on Thursday bought the Jones and Kinkadee mine at Sheriff's sale. The property was sold to satisfy a labor lien filed by Perry for \$2,377.04. Mr. Perry and W. M. Boardman, his attorney, visited the mine yesterday and notified the men at work to stop until the claim was satisfied.

An Unlucky Photographer.

Mr. Woods, a photographer, at Lake Tahoe, was crossing the lake Wednesday, and had his boat containing a camera, attached to the steamer Gov. Stanford, when sparks set fire to his boat, destroying it together with the camera. Loss, \$400.

The Place to Fatten.

The ranchers on the Meadows have had the best crops ever known. Several of them have already contracted for the sale of all the alfalfa hay they can spare at good prices. Stock men aver that Reno is the best place on this coast for feeding beef cattle.

Bodie Enterprise.

A Bodie saloon keeper advertises for a partner in the business and says "a good poker player is preferred." Here is a chance for some enterprising youth to go into business.

THE SACHS EMBROIDER.

The Trouble Caused by a Backless Hoodlum from Los Angeles. A San Francisco Chronicle reporter has traced the origin of the attempted assassination of Mrs. Sachs by her husband to the door of Samuel C. Cook, a dapper visitor from Los Angeles, who, until Monday night last, resided with his wife at 829 Sutter street. Cook is well known in Los Angeles. His parents reside in the East and, it is said, furnish him with a monthly allowance of about \$300 for his living expenses. A few years since he married one of four sisters in Los Angeles, heiresses to an estate bringing to each an income of between \$300 and \$400 monthly. This, added to his own resources, enabled the pair to live in fair style. Some five months since they left Los Angeles and took up their residence at the address above mentioned. One quiet afternoon, not three months ago, he arose from a poker game in a first-class Market street hotel with his pockets innocent of cash and with his fine gold watch and chain and diamond ring pledged to another player for nearly \$250. Previous to this he had formed young Sachs' acquaintance and had grown to be a tolerable frequent visitor at the Van Ness avenue mansion. Mrs. Sachs and himself becoming particularly fast friends. In his temporary impetuosity, therefore, Cook turned to Sachs for aid, requesting a loan of \$250 with which to redeem his valuables. Sachs presumably declined, for within a day or two Cook informed an intimate friend that a millionaire refused to lend him \$250 and he was going to get even. With a little encouragement, he unfolded the entire plot, only holding back the names of the interested parties. His proposition, it is averred, was nothing less than to deliberately ruin Sachs and his family. His boasts or conquests were made openly last week, and one of his statements reaching the ears of Sachs last Saturday afternoon, led to his returning home in the evening and accusing his wife of the grossest infidelity with Cook. After thrashing his wife Sachs left and going to 522 Sutter street and covering Cook with his revolver gave him a well deserved thrashing. On his return home the row was resumed and his wife was shot through the arm. Mrs. Sachs' wound is not at all dangerous, and after she recovers from her nervous shock she will be but little inconvenienced by the wound in her arm. It is a dirty muss all the way through, and while Sachs did a righteous act in giving Cook a good thrashing, he (Sachs) deserves to be punished to the fullest extent.

A Little Wormy.

Of a child literally eaten up alive by worms the Salt Lake Tribune says: "Yesterday a child was brought from Tintic to this city for treatment for the sting of some kind of an insect. The child had received these injuries within the past few days, but when it is known. On the shoulder and extending up the neck and across the cheek were various pimples similar to those having been made to the bite of a bug and in each of these was a worm fully a quarter of an inch long. Twenty six of these were taken out by the doctor, and the child probably saved from death, as they would have reached vital parts of the body in a few days had they not been removed. The doctors say they have never seen or heard of such a case as this, and have no idea of what insect deposited the eggs that produced so remarkable a result."

Military Drill.

Captain Moger calls upon the members of the Reno Guard to assemble at their armory Monday evening at 8:45 o'clock. It is very necessary that every member of the company should be there that evening. The company took part in the Fourth of July celebration and made a good showing. The GAZETTE hopes to see them continue to take an active interest in company drill and target practice that they may be able to compete with other companies fair week.

A Young Man's Depravity.

The Carson Tribune says: A shocking piece of scandal is reported from Lone Pine, wherein a young man is said to have wrought the ruin of his wife's sister. If true as stated, it is a case calling for prompt action on the part of the Inyo county legal authorities, to the end that the fullest vengeance of the law may be wreaked upon the vile wretch.

Heavy Figures.

Geo. H. Cunningham came in from Sierra valley. He says grasshoppers are very thick in the north end. The farmers have a sum in arithmetic to show how many there are. There are 3,000,000 blackbirds in the valley, and they eat 70 hoppers a day apiece. How long will it take to eat all these are? The answer is, 80 years.

K. of P.

Grand Chancellor Geo. A. Morrison, Gold Hill, was here last evening paying a friendly visit to Amity Lodge No. 8 K. of P. Several Knights from the Comstock were also here. The members of Amity Lodge entertained their visitors at their Lodge room.

Undecided.

Mr. Powning says he has not yet decided whether to start a paper at Salt Lake or not. He has done but little as yet, but intends going out again in two or three weeks to investigate the proposition further.

THE FAIR.

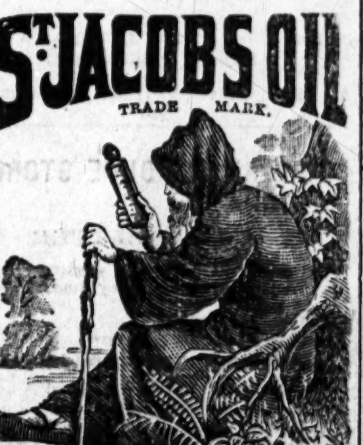

Something Reno Ought to Appreciate and Assist in Every Way Possible.

The advertisement of the N. S. A. M. and M. Society appears in the GAZETTE columns to-day. The Trustees have arranged a very attractive speed programme, and are working hard to make the coming exhibition of speed, stock cattle, fruits, and in fact everything usually exhibited at Pacific coast fairs, excel all former exhibitions in this State. The large programmes and catalogues will be sent out in a few days and will give full particulars, besides a list of special premiums offered. Parties who intend to give special premiums in any department are requested to notify Secretary Roff that he may have time to have the list printed with the books. Any names handed to the GAZETTE will be published, with a list of articles given. The Nevada State Fair is attracting a good deal of attention all over the State as well as in California, Oregon and Utah. The GAZETTE receives letters nearly every day from parties anxious to know what the Society are doing and the prospects for the coming meeting. Adjoining towns are manifesting a disposition to assist the Trustees in every way possible to make the Ninth Annual Fair a success, but Reno must not expect to have her neighbors do all the work. If the merchants, farmers, saloon men, hotel proprietors, and the citizens generally will all put a shoulder to the wheel and assist the Society they will be repaid ten fold. It is of great benefit to the town and to the State to bring people together once a year. The farmers have an opportunity of talking with their neighbors and exchanging ideas, thereby giving each other the benefit of their experience. If we go to work independent of each other and each one tries to do something for the benefit of the Society and the State at large, it will do good and be the means of making the State Fair a success in every particular. Parties wishing space in the Pavilion ought to notify Secretary Roff as early as possible. He will take special pains to satisfy and please everybody. You cannot expect to wait until the last minute and then come in and get the best space in the building. Attend to it in time and you will get just what you want.

Libelous.

The Enterprise contains this libel on the farmers: "Down at Reno nearly every day a rancher is roped into a back alley and robbed." This being the case those ranchmen, after being roped, doped and robbed for five or six years, will at length learn how to beat the game by taking their wives to town with them.

C. C. Powning returned from Salt Lake last night and Mrs. Powning came in from Aurora, where she has been visiting for a week or two.

WHO MAY BE SUFFERING FROM the effects of youthful follies or indis- cretion, will do well to avail themselves of this, the greatest boon ever offered to the sufferer of humanity. DR. SPINNEY will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.
There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thick milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the earliest stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office hours—10 to 4 and 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice \$5.
